

DATA QUALITY SUMMARY	
Total Rows Before Cleaning	15500
Total Rows Removed During Cleaning	120
Total Rows after Cleaning	15380
Reason for Row Removal	1) Duplicate records were removed to eliminate duplicate transactions.
	2) Records with Quantity = 0 were removed as the project required positive integer quantities only.
Missing Months Documentation	1) Jun-2023 source file was not available in the provided folder.
	2) Feb-2024 source file was not available in the provided folder.
	3) These missing months were documented and excluded from analysis.
Final row count	15380
Final Column Count	13
Columns Included	• Name • Order_Date • Source_Month • Month • Customer_Name • Customer_Type • City • State • Product_Name • Category • Quantity • Unit_Price • Total_Amount
Data Quality Improvements	
• Standardized column names across all files.	
• Standardized date formats.	
• Standardized product names.	
• Removed currency symbols and converted amounts to numeric values.	
• Removed duplicate records.	
• Removed invalid quantity records.	
• Created Source_Month and Month fields.	
• Prepared a clean and analysis-ready dataset.
